## OBJECTIVE

Constantly seeking to engage my knowledge to learn something useful and keep challenging myself to be a better performer in accordance to the company's requirements. Good and quick learner, team player, love to learn new things, flexible with different technologies.

## PROJECTS

### PERSONAL PORTFOLIO WEBSITE [🔗](#)

- Developed a fully responsive personal portfolio website using HTML5 for semantic structure, CSS3 for modern styling, and JavaScript for interactive features.

### GYM WEBSITE [🔗](#)

- Developed a dynamic and responsive gym website using HTML5 for semantic structure, CSS3 for modern styling, and JavaScript for interactive features.
- Utilized the AOS (Animate On Scroll) library to add smooth, engaging animations

### MATRIMONY WEBSITE [🔗](#)

- Developed a responsive matrimony website using HTML5, CSS3, and Bootstrap to ensure cross-device compatibility and a mobile-first design. Implemented dynamic features with JavaScript, including real-time form validation, user profiles, and a personalized search function.

## CERTIFICATIONS

- **Advanced Diploma in Computer Application**
